

SURROUNDINGS

Located 500 meters from the Four Seasons, the Chalet is easily accessible by car but still very isolated. Once in the chalet you have the lodge feeling with all the comfort of a chalet. 360 degrees open views on the Mont d'Arbois, Cote 2000, Rochebrune and Megeve Valley from different sides of the chalet.

Ski-in is easy as the chalet is next to the snowcat area and you just have to ski down from Ideal chair lift and walk toward the chalet for 200 meters. Ski out either requires 10 mins going up the mountain to catch the Four Season path or you can ski down via the same snowcat piste and catch the free shuttle bus bringing you to either cote 2000 or Mont d'Arbois ski lift.

Le Mont d'Arbois is the most prestigious area of Megeve and is known for its amazing landscape, great private restaurants and jet set clientele.

About Chalet Les Meuniers

The lodge is made up of authentic Alpine farmhouses, rescued from ruin high up in the hills of the French Alps. The building was taken apart beam by beam, numbered and put back together piece by piece in a one acre park.

It have large balcony and outdoor terrace with majestic mountain view, and ski-to-door access, Chalet Les Meuniers is only 10 minutes drive from Megève.

After a day of skiing, guests can relax in the large patio seating and garden or in the large family lounge area.

Guest Reviews

"Stunning and very unique chalet The view from every window was absolutely incredible. The chalet is wonderfully unique - all made of wood. The manager is so helpful - he really made our stay very special. If we ran out of firewood, he would replenish it and helped sort out airport transfers. We especially loved the sitting room - plenty of space for our party of 10"
